

Taha Aliasgar Badami

Pune, Maharashtra — +91-8482843350 — badamitab@gmail.com — LinkedIn: Taha-Badami

Professional Summary

Early-career software engineer (BCA, CGPA 8.4/10) with hands-on experience designing, building, and testing full-stack applications (React, REST APIs, JWT auth), automation scripts (Python), and networked systems (socket programming, multithreading). Comfortable across the SDLC – requirement understanding, coding, testing, configuration, and deployment – with strong debugging and code-review instincts reinforced by CEH, CHFI, and CCNA certifications. A fast learner who picks up new tools and technologies quickly, works well in collaborative/team settings, and has a track record of reliability: 99% uptime across 100+ systems and 90% first-contact issue resolution.

Technical Skills

- **Languages:** Python, SQL, JavaScript, C/C++ (academic)
- **Web/Full-Stack:** React, Tailwind CSS, REST APIs, JWT Authentication, Axios, HTML/CSS
- **Core CS:** Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems
- **Engineering Practices:** SDLC, Agile fundamentals, Git version control, Unit Testing & Debugging, Code Review, CI/CD basics
- **Systems & Networking:** Socket Programming, Multithreading, TCP/IP, DNS, DHCP, Active Directory
- **Platforms/Tools:** Linux (Kali, Ubuntu), Windows, VMware, VirtualBox, Postman
- **Security Practices:** Secure Coding, Authentication & Session Management, Log Analysis, OWASP Top 10, CIA Triad

Projects

Student Management Portal (Full-Stack)

Jan 2025 – Feb 2025

React, Tailwind CSS, REST API, JWT Authentication

- Built a full CRUD web application with JWT-based authentication for secure, role-based access control.
- Implemented client-side validation for email, phone, and ID formats aligned with backend rules.
- Integrated Axios interceptors for centralised API handling and toast notifications for admin actions.

Secure Remote Administration Tool

Dec 2024 – Feb 2025

Python, Socket Programming, Threading

- Built a multi-client remote administration tool with authentication mechanisms and session logging for audit trails.
- Developed remote command execution, file transfer, and system monitoring features.
- Applied socket programming, multithreading, and secure network protocol design principles.

Smart Video Controller

Mar 2024 – Aug 2024

Python, OpenCV, MediaPipe, Speech Recognition

- Built a gesture- and voice-controlled video application, achieving 92% gesture recognition accuracy at 30 FPS.
- Integrated a speech recognition API for hands-free interaction, cutting user interaction time by 40%.

Penetration Testing Lab Environment

Ongoing

VirtualBox, Kali Linux, Metasploitable, DVWA

- Built and automated an isolated lab environment; wrote Python scripts to automate reconnaissance and vulnerability checks.
- Performed assessments with Nmap, Nessus, and OpenVAS, documenting findings in structured reports.

Work Experience

IT Support Engineer

Sep 2024 – Mar 2025

Olympus Computers, Pune

- Maintained 99% uptime across 100+ workstations; resolved 70+ weekly technical issues with a 90% first-contact resolution rate.
- Managed user accounts, permissions, and Active Directory tasks for secure access control.
- Performed system updates, security patching, and preventive maintenance across the fleet.

Certifications

- **Certified Ethical Hacker (CEH)** — EC-Council, 2025
- **Computer Hacking Forensic Investigator (CHFI)** — EC-Council, 2026
- **CCNA** — Sysap Technologies, 2023

Education

Bachelor of Computer Applications (BCA), Abeda Inamdar Senior College, Pune
CGPA: 8.4/10

2022 – 2025
