

Taha Aliasgar Badami

Associate Developer — Full Stack (React & Python)

Pune, Maharashtra | +91-8482843350 | badamitab@gmail.com | LinkedIn: Taha-Badami

Professional Summary

Entry-level full stack developer with hands-on experience building responsive web applications using React and Python, backed by a solid grounding in OOP, data structures, DBMS, and REST API design. Comfortable working across the stack — from client-side UI to API-driven backends and role-based authentication — with a collaborative, detail-oriented approach suited to fast-paced, client-facing engineering teams. Also brings a strong interest in application security, supported by CEH and CHFI certifications.

Technical Skills

Programming Languages: Python, Java, C++, SQL

Web Development: React, Tailwind CSS, HTML, CSS, JavaScript, REST APIs, JWT Authentication

Core CS Concepts: Object-Oriented Programming, Data Structures & Algorithms, DBMS, SDLC Fundamentals

Tools & Platforms: Git, Linux, Docker

Work Experience

IT Support Engineer — Olympus Computers, Pune

Sep 2024 – Sep 2025

- Configured and maintained hardware and OS environments across 100+ workstations, sustaining 99% uptime.
- Resolved 70+ weekly technical issues spanning networks, operating systems, and end-user devices, achieving a 95% resolution rate.
- Collaborated with system administrators to implement security patches and deliver support initiatives aligned with SLAs — reinforcing structured, process-driven problem solving.

Projects

Student Management Portal (Full-Stack)

Jan 2025 – Feb 2025

Tech Stack: React, Tailwind CSS, REST API, JWT Authentication

- Developed a full-stack student management portal with create, update, search, and delete functionality through a responsive React interface.
- Built dynamic forms where department and programme options update based on user selections from backend data.
- Implemented JWT-based login flow and protected routes to manage role-based access.
- Applied client-side validation and structured component design to improve usability and maintainability.

Secure Remote Administration Tool

Dec 2024 – Feb 2025

Tech Stack: Python, Socket Programming, Threading

- Built a secure remote administration tool for authorized Windows system management with multi-client support.
- Implemented authentication mechanisms and session logging to maintain audit trails for system access.
- Developed features for remote command execution, file transfer, and system monitoring capabilities.
- Gained hands-on experience with socket programming, multithreading, and network protocol design.

Education

Bachelor of Computer Applications (BCA) — Abeda Inamdar Senior College, Pune 2022 – 2025
CGPA: 8.4 / 10

Higher Secondary Certificate (HSC) — Maharashtra State Board, 62% 2022

Secondary School Certificate (SSC) — Maharashtra State Board, 77% 2020

Certifications

Cisco Certified Network Associate (CCNA) — Sysap Technologies 2023

Certified Ethical Hacker (CEH) — EC-Council 2023

Computer Hacking Forensic Investigator (CHFI) — EC-Council 2026
