

Taha Aliasgar Badami

Program & Operations Coordinator | IT Support & Cybersecurity Background
Pune, Maharashtra | +91-8482843350 | badamitab@gmail.com | LinkedIn: Taha-Badami

Professional Summary

Detail-oriented BCA graduate with hands-on IT support and cybersecurity experience, offering a strong technical foundation for program and operations coordination in a technology-led environment. Experienced in tracking and resolving day-to-day issues, coordinating with vendors and stakeholders, and logging root-cause/resolution details while managing 100+ workstations at 99% uptime with a 90% first-contact resolution rate. Holds CEH, CHFI, and CCNA certifications, bringing technical literacy in cybersecurity, networking, and infrastructure directly relevant to coordinating technology-driven programs.

Core Competencies

- **Task Coordination & Follow-up:** Tracking and prioritising daily issues/requests across 100+ workstations through to resolution
- **Technical Literacy:** Cybersecurity, networking (TCP/IP, DNS, DHCP), Active Directory, Linux, infrastructure, incident/log monitoring
- **Operational Metrics:** Uptime and resolution-rate tracking (99% uptime, 90% first-contact resolution across 100+ workstations)
- **Stakeholder Coordination:** Working with vendors and internal users on hardware repairs, replacements, and access requests
- **Issue Documentation:** Logging root-cause and resolution details; structured findings reports from vulnerability-assessment project work

Certifications

- Computer Hacking Forensic Investigator (CHFI) — EC-Council, 2026
- Certified Ethical Hacker (CEH) — EC-Council, 2025
- Cisco Certified Network Associate (CCNA) — Sysap Technologies, 2023

Professional Experience

IT Support Engineer Sep 2024 – Mar 2025
Olympus Computers, Pune

- Tracked and resolved day-to-day technical issues and requests across 100+ workstations, maintaining 99% uptime.
- Handled a weekly volume of 70+ support requests, logging root-cause and resolution details, achieving a 90% first-contact resolution rate.
- Managed user accounts, permissions, and Active Directory access for secure, organised system access.
- Coordinated with vendors and internal stakeholders for hardware diagnostics, repairs, and replacement scheduling to minimise downtime.
- Maintained network reliability (LAN/Wi-Fi) through troubleshooting configuration and connectivity issues.
- Carried out recurring preventive-maintenance and patching cycles across the workstation fleet.

Relevant Projects

Penetration Testing Lab Environment Ongoing
VirtualBox, Kali Linux, Metasploitable, DVWA

- Documented structured vulnerability-assessment reports and findings logs using Nmap, Nessus, and OpenVAS, translating technical results into clear, reviewable records.
- Monitored logs and network traffic, capturing incident patterns and observations for structured follow-up.

Secure Remote Admin Tool Dec 2024 – Feb 2025
Python, Socket Programming, Threading

- Built a secure remote administration tool with session logging to track system access.

Education

Bachelor of Computer Applications (BCA)	2022 – 2025
<i>Abeda Inamdar Senior College, Pune</i>	CGPA: 8.4 / 10
Higher Secondary Certificate (HSC)	2022
<i>Maharashtra State Board</i>	62%
Secondary School Certificate (SSC)	2020
<i>Maharashtra State Board</i>	77%

Achievements

- Completed hands-on HackTheBox labs (enumeration, privilege escalation, lateral movement) with findings documented in structured reports; automated recurring reconnaissance/vulnerability checks via Python scripting.
