

# Taha Aliasgar Badami

Associate Information Security Consultant — VAPT

Pune, Maharashtra | +91-8482843350 | badamitab@gmail.com | LinkedIn: Taha-Badami

## Professional Summary

Cybersecurity fresher certified in CEH and CHFI, with hands-on Vulnerability Assessment and Penetration Testing experience from a self-built lab environment. Practiced in black/grey box testing, web application security assessment, and exploitation techniques (SQL injection, XSS, privilege escalation, post-exploitation) using Nmap, Nessus, Metasploit, and Burp Suite. Comfortable documenting findings in structured, audit-style reports and automating security checks with Python.

## Technical Skills

**Security Testing:** Vulnerability Assessment & Penetration Testing (VAPT), Web Application Security Testing, Black/Grey Box Testing, Network & Application Security Assessments

**Security Tools:** Burp Suite, Nmap, Nessus, Metasploit Framework, Wireshark, OpenVAS

**Standards & Frameworks:** OWASP Top 10, MITRE ATT&CK, CIA Triad

**Scripting & Automation:** Python (reconnaissance & validation scripting), SQL

**Networking:** TCP/IP, DNS, DHCP, LAN/Wi-Fi Troubleshooting

## Work Experience

**IT Support Engineer** — Olympus Computers, Pune

Sep 2024 – Sep 2025

- Collaborated with system administrators to implement security patches across 100+ workstations, sustaining 99% uptime.
- Resolved 70+ weekly technical issues spanning networks, operating systems, and end-user devices with a 90–95% first-contact resolution rate.
- Managed user accounts, permissions, and Active Directory configuration to maintain secure, reliable access control.

## Projects

**Penetration Testing Lab Environment**

Ongoing

*Tech Stack: VirtualBox, Kali Linux, Metasploitable, DVWA*

- Built an isolated multi-machine lab to practice black/grey box testing methodology against intentionally vulnerable web applications and network services.
- Performed vulnerability assessments using Nmap, Nessus, and OpenVAS; practiced exploitation techniques including SQL injection, XSS, privilege escalation, and post-exploitation across controlled environments and Hack The Box.
- Wrote small Python scripts to automate reconnaissance and basic vulnerability checks, documenting findings in structured, audit-style reports.

**Secure Remote Administration Tool**

Dec 2024 – Feb 2025

*Tech Stack: Python, Socket Programming, Threading*

- Built a secure remote administration tool with authentication mechanisms and session logging to maintain audit trails for system access.

## Research

**Deepfake Image Detection — Hybrid Dual-Branch CNN (Co-Author)**

*Spatial + Frequency-Domain Analysis, Confidence-Based Filtering*

- Co-authored applied research analyzing spatial and frequency-domain artifacts to distinguish authentic images from AI-manipulated media, reaching 83–84% validation accuracy, with a confidence-based filtering mechanism to flag low-certainty classifications for review.

## Education

**Bachelor of Computer Applications (BCA)** — Abeda Inamdar Senior College, Pune 2022 – 2025

CGPA: 8.4 / 10 | HSC — Maharashtra State Board, 62% (2022) | SSC — Maharashtra State Board, 77% (2020)

## Certifications

Certified Ethical Hacker (CEH) — EC-Council 2025

Computer Hacking Forensic Investigator (CHFI) — EC-Council 2026

Cisco Certified Network Associate (CCNA) — Sysap Technologies 2023
